'Jaczam'

* the suggested crabapples have been recommended due to local adaptability and resistance to foliar diseases. Not all varieties listed are deemed suitable as parkway or street trees because of growth habits or characteristics. Some varieties may pose visibility or obstruction problems.

**Restricted Trees**

The following is a listing of trees commonly found in our locale. Specific species chosen are based on fruiting habits, growth habits, form, susceptibility to serious diseases and insects, propensity to storm damage, and other limitations. Listed limitations are the more serious problems for our specific area.

<table>
<thead>
<tr>
<th>Common Name</th>
